Roggwil, October 11th 2023

Russia Sanctions

In view of Russia's ongoing military intervention in Ukraine, the Swiss Federal Council decided on February 28th, 2022, to adopt the EU's sanctions package.

As a Swiss company, Schneeberger AG Lineartechnik supports the decision of the Federal Council, and thus complies with the EU sanctions against Russia.

For this reason, we confirm that we are not using any steel or steel products and iron, originating from Russia, in the products we manufacture.

Best regards
SCHNEEBERGER AG Lineartechnik
